

LARGE CROWD HEARS SPEAKING

N. N. Campbell of Greenville Spoke to Large Crowd in Interest of Hon. Chas. F. Morris for Governor.

Before a crowd of several hundred people last night Mr. N. N. Campbell of Greenville spoke in the interest of the candidacy of Chas. F. Morris of Winnsboro for governor of Texas. The speaking began at 8:30 o'clock and was held in front of the City Hall on Main Street.

Mr. Campbell was introduced by Rev. J. C. Welch, pastor of the Christian Church. He started his speech by outlining to his hearers the enormous increase in the state taxes under the Ferguson administration, the partiality shown to corporations, and the enormous expenditure of the people's money on the penitentiary system. The Robertson insurance law was also discussed at length by the speaker. "The railroad intangibles have been reduced about \$17,000,000 in the last five years, while their mileage has increased about 3,600 miles," said Mr. Campbell, "and if the entire mileage now existing had been assessed at the same rate per mile that it was five years ago it would now show more than \$213,000,000 more than it now does. This is a reduction in the assessed valuation as against 1910 the enormous sum of \$55,000,000, whereas the assessment against the property tax-payers of Texas has increased \$366,000,000."

The speaker then referred to the \$100,000 collected during the Colquitt administration in fire insurance when the Canyon City Normal administration building burned. He said that "Governor Colquitt placed this money in various banks over Texas and had it drawing 4 per cent interest until Ferguson was placed at the head of the State's affairs, and then Mr. Ferguson drew it all out of the banks in which it had been placed and put it in his own bank at Temple. When the money was demanded by the president of the board of regents it was paid to him without one cent of interest, and when demand was made for the interest thereon it was promptly refused. This large sum remained in Mr. Ferguson's bank about 12 months and the people made nothing on it in the way of interest. How much did Mr. Ferguson make?"

"Mr. Morris favors an economic administration of the State's affairs and the correction of the wasteful features of the State warehouse law; he favors organized labor and the separation of the State University and the Agricultural and Mechanical College, and the complete divorce of state institutions from politics."

Many points were brought out by the speaker showing why Mr. Morris should be elected governor, and he was applauded very freely throughout his address.

AMUSEMENTS

New Hart Play by Noted Author of Fiction.

"The Primal Lure," new Triangle-Ince feature, which will be shown at the Dixie tonight, was adapted by J. G. Hawks, of the Ince staff of photodramatists, from Vingie E. Roe's novel of the same name.

Miss Roe has, during the last few years, contributed many stirring tales of the great outdoors to the world's literature. Critics have been free to declare her work true to life and rich with the red blood of American men and women. Many consider "The Primal Lure" her best effort.

Hawks, who adapted the novel for the photodrama, has traveled through the Canadian country in which the scenes of the story are laid, and therefore was qualified to supply the requisite atmosphere and local color.

There will also be two reels of Keystone-Triangle comedy—"The Love Comet" included in tonight's bill.

Saturday at the Queen "Dorian's Dilemma," by Grace Valentine.

PROMINENT BANKER IN CITY

Mr. James S. Harrison, a prominent banker of Brenham, spent today in the city the guest of his brother, Robert A. Harrison. He reports that crop prospects in his section are very flattering and that reports from over their trade territory are to the effect that the corn crop is already made. In speaking of good roads, Mr. Harrison said that he was delighted to see Bryan and Brazos County lined up with the other leading counties and cities of Texas in road building, and that it was his opinion that the returns from the roads would be enormous.

"I can't understand why those two lawyers call it a deed of trust. 'Why not?' From the care with which they are drawing it up it is quite evident that they don't trust each other."—Louisville Courier-Journal.

LETTER FROM PLAINS

Brazos County People Doing Well. Rain Needed.

Dimmitt, Texas, July 9, 1916.—To the Bryan Eagle: This is about the third time that I have undertaken to write a few lines to the old home paper in the last two months, but it seems I can never get one off. I have but little to write that would interest the East Texas readers.

The plains are very dry now. Have not had a good rain since April. Everyone who has wheat is harvesting now. Some have threshed. The yield is very satisfactory. Some crops have threshed as much as 32 bushels per acre, some as low as seven bushels, depending altogether on the preparation of the land and time of planting. Row crops are doing nicely, considering the long drought.

Our old friend R. A. Holland and family, and our tax assessor, W. B. Green and family, have just returned from an auto trip to Big Springs, Garden City, San Angelo, Robert Lee and other points in South and West Texas. Reuben Holland also visited Eliza Pate and family, another Brazos County boy who came west and has never been able to get back to the county that flows with milk and honey.

Mr. and Mrs. L. S. Barron, formerly of Bryan but now of Dimmitt, are the proud parents of a fine baby boy. Luther says the boy is sure a fine one and weighs over 10 pounds.

Your writer has had the pleasure of making two long auto trips this year, one via Lubbock, Tahoka, Lamesa, Seminole, Shafter Lake to the Scratch Ranch in the northwest part of Andrews County. This trip was made the first of June. Crops were very good from here to Lamesa, but pretty dry. The rest of the country we went over was sand and shiner brush, and was used nearly altogether for ranching purposes. We saw some very fine cattle on this trip.

The next trip we made to Quanah to attend the marriage of our oldest son, Emmett O. Dixon, to Miss Beulah Lamberson of Quanah.

Say, by the way, has your old townsman and merchant Mr. Jim Edge, returned to Bryan yet? He and Mrs. Edge and Mrs. Holmes overtook our wedding party about five miles west of Childress, mired down in the mud, and Mr. Edge, seeing we were heavily loaded and finding out we were traveling in the same direction, asked me to ride with them. Of course I gladly accepted the invitation, and behold, we hadn't gone far till we came near raking up old acquaintanceship. We came along together as far as Plainview. I certainly enjoyed my ride with them, also their company, as they could tell me about many of my old friends back home. I have been looking for an account of his trip and return to Bryan, but have failed to see anything about it. I thought possibly this plains water had located him and he had decided to stay out here.

Wishing the readers of the Eagle good fishing luck this summer, I am, as ever,

W. S. D.

NEW BUILDING FOR A. & M. COLLEGE

Money Will Be Available for Veterinary and Auditorium Buildings on September First.

Contracts will be let during the latter part of this month, it was announced today, for the new \$100,000 Veterinary Science building and the new \$100,000 auditorium for the Agricultural and Mechanical College of Texas. The money for these two new structures becomes available on the first of September and the board of directors propose to lose no time after that date in pushing them to completion.

The new auditorium site has been selected and this structure will be located alongside the Military Walk and will face the mess hall. The Veterinary Science building will be located on the same site as the old infirmary, which will be torn away. The new hospital, which has been under construction for the past several months, is nearing completion and will be ready for occupancy by the next term of school.

WILL ATTEND SINGING CONVENTION

J. M. Hubbard, father of Contractor T. B. Hubbard, leaves this afternoon for Athens, Texas, to attend a singing convention. This convention was organized 46 years ago and has never missed an annual meeting. The old Sacred Harp is the song book they use. The convention meets this year at the place it met 34 years ago, at which time J. M. Hubbard was elected president.

"Recruiting Station" was the sign on an automobile which went south in Niagara street at 25 miles an hour yesterday afternoon. They'll be having movable fixed posts next.—But, fable Express.

CITY OF PARIS BEING REBUILT

More Than \$1,000,000 in Building Permits Have Been Issued in Last Two Months.

(By Associated Press)

Paris, Texas, July 13.—In excess of \$1,000,000 in building permits have been issued here during the last two months for the construction of business structures to replace those destroyed in the fire of March 21, 1916, according to municipal records. It is predicted that within the next three years the city will have been entirely rebuilt. Streets are being widened, and the new buildings are being constructed as near fireproof as possible. Bonds will be issued shortly to reconstruct the municipal buildings destroyed.

CAMPAIGN FOR \$1.00 SCHOOL TAX

State Superintendent W. F. Doughty Would Make Amendment to Vote \$1.00 on \$100 Valuation.

(By Associated Press.)
Austin, Texas, July 13.—An active campaign is being conducted by Prof. W. F. Doughty, State superintendent of public instruction, for the adoption at the November general elections of the proposed constitutional amendment to permit voting in various school districts a school tax of \$1.00 on the \$100 valuation. The constitutional limit is now 50 cents. The amendment also authorizes the voting of a county school tax not to exceed 50 cents on the \$100 property valuation.

TABOR TOPICS

Crops are still looking good, but it is getting a little dry in this section. We think the corn will not suffer much loss, except the young corn that had to be planted over. The cotton will stand several days yet, but we hope to see a nice little rain within the next few days.

The farmers are getting through with their work and are talking fishing on every side.

Miss Venona McDonald, from Bedias, has been visiting Misses Laura and Gladys Broach the past week.

Rev. Mr. Smith filled his regular appointment at Cottonwood Sunday morning and Sunday night, both services being largely attended.

The Methodists will begin their series of meetings Friday night at Alexander.

It was learned that Mr. Bon Francis had quite a little wreck last Sunday night while returning from church, when the horse he was driving became frightened, kicked loose from the buggy, leaving it in bad condition, but fortunately no one was hurt.

We think that the members of the Brazos County Singing Convention are due thanks to "The Eagle" for its co-operation. The full statement of the convention which appeared in the last week's Eagle was very interesting to those of us who could not attend, as well as to those who did attend.

We are glad to know that the convention will meet with the Alexander choir (near Tabor) to hold its next session, and hope to see it one of the greatest sessions yet held. The people from some parts of the county will have good roads to travel over to the next session, which will mean a great deal, and they will not be afraid to start out in their "Henry Js" for fear of getting stuck up in a sand bed.

WORLD'S MODEL MOUNTAIN
Indian Legend Says Shasta Was the Creator's Masterpiece.
Mount Shasta, according to an Indian legend, was the first mountain made by the Creator, as his masterpiece, and with this as a model he designed the other mountains of the world. The ascent of Shasta is difficult, but with competent guides is not perilous. With the little town of Sisson as a base there is a good horseback trail to Timberline camp, an overnight rest six miles away. Starting from this camp very early the next morning the experienced mountaineer can make the ascent and return to Sisson in a day.—National Geographic Magazine.
Society is no comfort to one not sociable.—Cymbeline.

CITY'S MOUNTAINS CALM
Summit of Skyscraper Gives Feeling of Peaceful Awe-Inspiring Quiet.

Upon the top of one of New York's man-made mountains there is the same peaceful quiet as on any mountain top. No sound from the street below comes up this distance. Men on the sidewalks are infinitesimal dots, darting hither and yon. Looking down upon them, one is inclined to reflect what puny beings humans are and from this lofty point of view almost forgets his sympathy for their personal interests. Then comes the realization that this mountain was built by these puny beings from materials dug out of the earth in a crude state, purified, shaped and fastened together in a manner that will make it stand practically for all time, and then a feeling of reverence for the human brain—that God-given boon which has made these things possible.—National Geographic Magazine.

BRYAN PEOPLE PRAISE SIMPLE MIXTURE.

Many in Bryan praise the simple mixture of buckthorn bark, glycerine, etc., known as Adler-ka. This remedy is the most THOROUGH bowel cleanser ever sold, being even used successfully in appendicitis. One SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after you take it the gasses rumble and pass out. Adler-ka cannot gripe and the INSTANT action is surprising. E. R. Emmel, Druggist.
